Symbols and Notes

STATION NOTES

- † Station not currently on the air.
- § Station equipped to broadcast stereo.
- ‡ Information scheduled to change.
- * Educational station.
- Station shares transmitter and time.
- Station shares time with another station.

POWER NOTES

- g Temporarily operating with 100 watts power.
- p Temporarily operating with 250 watts power.
- q Temporarily operating with 500 watts power.
- r Temporarily operating with 1000 watts power.
- t Temporarily operating with 2500 watts power.
- u Temporarily operating with 5000 watts power.
- v Temporarily operating with 10,000 watts power.
- w Temporarily operating with 25,000 watts power.
- j Temporarily operating with 50,000 watts power.
- m Temporarily operating with 250,000 watts power.

SCHEDULE NOTES

- c Temporarily does not operate at night.
- d Daytime only.
- f Limited-time or specified-hours operation.
- h Station uses higher power nights.
- k Temporarily operating with lower power. See listing by frequency.
- n Station operates nights only.
- Station uses lower power nights.

north american RADIO-TV STATION GUIDE

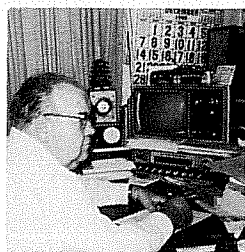

by Vane A. Jones

ELEVENTH EDITION

This handy book contains listings of all the radio and television stations in the United States, Canada, Mexico, West Indies, and Central America. There are nearly 11,000 stations in all. The over 5500 a-m stations, over 3800 fm stations, and over 1200 television stations presently in operation, scheduled to start operation soon, or temporarily off the air are each listed in three ways: geographical location, frequency (or channel), and call letters.

This book is more than just a listing of stations, however. Important statistics, such as power (day and night for a-m stations), height of antennas (for fm stations), and sharing of time with other stations, are given. Stations with network affiliations are indicated, as are educational stations and fm stations broadcasting in stereo.

Regardless of your interest in radio and television, this book is a must for you. If you are traveling, it will list the stations broadcasting your favorite network in the area—or list for you the stations that are in the city or state you are in. If you enjoy pulling in distant stations (DX'ing), this book will help you identify each signal quickly. For the radio and television time buyer and others engaged in broadcasting activities, this book serves myriad uses. Each entry has been checked and rechecked—approximately 3500 changes were made in this edition—and the book listings computer-compiled, making this the most accurate and up-to-date guide available.

Vane Jones is engaged in many activities, but his first love is this book. Whenever possible, you will find him in his study, with a television set and two or three radios all operating at once. He can recite call letters and tell you the history of stations by the hour. Since the publication of his first station guide in 1958, his list of followers has grown with each edition, primarily because of the personal attention he gives each entry and the hairline accuracy for which he is famous.
