North American Radio-TV Station Guide

Fifteenth Edition

Handy and informative, this easy to use computer generated reference lists over 13,000 authorized television, FM, and medium-wave AM broadcasting stations in the United States, Canada, Mexico, and the West Indies.

Stations are listed three ways:

- Geographic location
- Frequency
- Assigned call letters

Special features include:

- Identification of noncommercial and educational stations
- Network affiliation for television stations
- Day and night power for AM broadcasts
- Stations not yet on the air or soon to resume broadcasting help to make the list as complete as possible

Whether you enjoy pulling in distant stations (DXing), or pilot your own airplane and need to check station frequencies or antenna heights, or like cross-country traveling and want to tune in regional stations, you will find this book a great help to identify stations. Whatever your interest in broadcasting stations may be, you should find this the most convenient, up to date, and accurate guide available.
